Dear Mr. Zeman:

Honey is truly a success story. When she first arrived here, she had been abused for years - confined and muzzled for barking. The mistreatment caused her to be fearful and overly protective of anything given to her - i.e. food, toys. Who could blame her? Those things were the only comfort she had in life. It has taken years and a lot of patience for Honey to come around and no longer feel threatened and afraid. She has found a wonderful home where she is pampered and most importantly, loved. Isn't that wonderful? And we have you to thank. It is because of your generous support that we are able to provide Honey and the other special needs animals in our care with a second chance at health and happiness.

As the winter weather approaches, we step up our public outreach efforts to alert current and potential pet guardians of their responsibility to adequately care for their dogs and cats. And though we've seen some progress, this remains the time of year when more and more homeless animals end up in our no-kill shelter in need of a good meal, medical treatment, a warm place to sleep, and a loving touch. Please read the enclosed meal ticket to see how to help this annual influx of innocent, deserving pets by adding a little something extra to your monthly Sponsor donation. On behalf of our entire staff we thank you for your support, and for allowing us to save so many special lives.
